*all major cleaning agents meet or exceed the EPA's Design for the Environment (DfE) Program guidelines. They are biodegradable, phosphate-free and VOC compliant

WOOL provides the look and feel so many of you want as a floor covering in your homes and your businesses.

This month you will save 10%

Help Shirley celebrate WOOL Carpets and Rugs this season. She'll be celebrating wool floor coverings all season at Regal Fabric Care. Although we do clean and maintain synthetic fibers daily we really love taking care of your wool carpets and rugs.

- Wool's all-natural look and feel doesn't sacrifice its clean-ability. In fact most spots and spills can be removed from wool if treated properly! Ask us about spot and spill clean-up including info about our AVENGE Home-Pro Spotter and the magic of white vinegar!
